Dear Team at Classroom Funding Inc.,

Thank you so much for your generous donation of a Lakeshore Learning gift card to my K/1st Grade Social Communication Learning Support self-contained classroom at Rossville Elementary School.

Because of your generosity, I was able to purchase high-quality instructional materials that I otherwise would have had to buy out of my own pocket. After carefully considering my students' greatest needs, I chose materials that support two of our most important instructional goals.

First, I selected resources that strengthen fine motor skills, an area in which many of my students with autism require ongoing practice. One of the things I appreciate most about Lakeshore products is how thoughtfully they combine fine motor development with meaningful reading and math activities. While less expensive alternatives are available, Lakeshore's materials are exceptionally durable and designed to withstand daily use in a classroom like mine, making them a worthwhile investment for my students.

I also selected materials that promote independent work skills. Building independence is one of our highest priorities because it prepares students to participate more successfully alongside their typically developing peers in general education settings. The materials purchased with your gift card will provide engaging, hands-on learning opportunities while helping my students develop the confidence and skills they need to work more independently.

Your generosity has made a meaningful difference in my classroom and in the lives of my students. I am incredibly grateful to you and to Classroom Funding Inc. for investing in their education and future. Thank you for supporting teachers and providing opportunities that truly make an impact.

I look forward to the opportunity to work with Classroom Funding Inc. again in the future.

With sincere appreciation,

Jennie John
